ADDENDUM
CITY OF AUSTIN, TEXAS

Solicitation: IFB APC0009 **Addendum No: 1** **Date of Addendum: May 16, 2016**

This addendum is to incorporate the following changes to the above referenced solicitation:

I. **Clarifications:** In Section 0500 Paragraph 8.1 is being replace by the following information.

8.1 The Contractor's employees shall wear safety vests, safety-toed footwear, protective glasses, and all other OSHA required safety equipment.

II. **Question:** Is it (5yrs experience) company related or individual employee related?

Answer: Yes, a minimum of 5 years' experience is required of the Contractor. "meaning either company or personnel" As referenced in 0500 paragraph 4.1

Question: Does the company need an applicator license or can it be on an individual employee or can we sub it to a company of our choice that meets AE requirements?

Answer: If the Contractor does not have an applicator license than at least one of the Contractor's employees must be licensed. Alternatively, a subcontractor may be used to fulfill this requirement. Refer to Section 0900 for instructions that must be followed if subcontractors will be used on this Contract.

Question: Is the 5 years' experience crucial?

Answer: The five years of experience is a minimum requirement in order to be considered for award.

III. **Additional Information:** Section 0500 Paragraph 8.8 is added as followed

The Contractor's employees shall wear hard hats, safety vests, safety-toed footwear, protective glasses, and all other OSHA required safety equipment when working at AE power plants and substations.

All hard hats shall conform to the specification of ANSI Z89.1-2009 or latest version, American National Standard for Industrial Head Protection.

All safety glasses shall be ANSI Z 87.1-2015 rated and approved for the hazards created by the work being performed. Employees shall wear impact-resistant safety glasses with attached side shields. **EXCEPTION:** If the environment contains hazards such as blowing dust or debris, then goggles shall be used.

The lenses of the safety glasses may be tinted for UV protection and employee comfort. However, tinting shall not contribute to additional hazards, such as low-light conditions.

Safety-toed footwear is required as basic foot protection for all employees who are exposed to foot hazards, such as falling, dropped, or rolled heavy loads or objects. Safety-toed footwear shall comply with ASTM F 2413-11 (not ANSI Z-41.1).

IV. ALL OTHER TERMS AND CONDITIONS REMAIN THE SAME.
