November 20, 2015

PROJECT: Main to Junction 420 (Downtown Area)
CIP ID: 5267.046
IFB#: 6100 CLMC550

SUBJECT: Answers to Bidders Questions as of the date of this letter, per 00100-IFB Article 1.(3)(C).

The following are answers to additional bidders questions received on the above project through the date of this letter. These answers do not modify the contract. Any modifications to the Contract will be through Addenda.

Q-1: Will the air hammer be in violation of any sound ordinances – that would potentially prevent it from being used on that side of the river?

A-1: Contractor is to comply with City Noise Ordinance. Refer to Chapter 9-2 of the City of Austin Codes and Ordinances which can be found online at the following link: https://www.austintexas.gov/faq/noise-issues-what-noise-ordinance.

Q-2: Can someone explain exactly why the entry / exit location in Butler Park cannot be moved back ~ 125' as long as it stays within the ROW/Workspace? It would save the city a considerable amount of money while significantly reducing the risks, noise pollution, risk of frak-outs, tearing up the side walk on Riverside Drive, etc?

A-2: The project shall be bid per the provided plans and specifications.

Paulinda Lanham
