After question three, which questions from the flowchart are you prepared to answer?

Is there funding?
Which department holds the funding?
What are the impacts, and gaps?

Root Cause Analysis

Story: What did you hear from the community?

We are still hearing from the community around the lack of affordable housing, in combination with gentrification in the eastern crescent.

Problem: What is the problem you identify?

African Americans are still experiencing a great deal of displacement and challenges in finding and maintaining affordable housing.

Is there funding to address the problem?

Yes

Do multiple departments administer these funds?

No

Which department holds the funding?

Neighborhood Housing and Community Development

What are the impacts of the funding?

African Americans who are currently being displaced are being served. The outcomes should show a decrease in the number of families being forced to relocate and an increase in the number of African Americans securing affordable housing.

Considering all of the information you have or have not collected above, how do we solve for this problem?

Re-evaluate the current processes and City partners to ensure fair housing practices are truly being done. Provide more education and resources for African Americans to keep housing in highly gentrified areas.
