## Root Cause Analysis

---

**Story: What did you hear from the community?**

Community members are experiencing financial instability. Some community members have not received financial education.

**Problem: What is the problem you identify?**

Financial education is not always offered to students in high school, and adults may not have access to financial education on their own.

**How does the problem show up in your community? Who is most impacted by the problem?**

Students do not know their financial options and the resources available to make more informed decisions about their educational paths. Adults experiencing financial instability may not know or understand how to become financially stable.

**Considering all of the information you have or have not collected above, how do we solve for this problem?**

The Commission recommends allocating funding for fostering financial stability in a holistic way, including but not limited to funding financial education from capacity building, culturally competent organizations. This recommendation is aligned with the following SD2023 Outcome: Economic Opportunity & Affordability.
