ATTACHMENT D

(Complete and return within three (3) days of notification of the three (3) low bidders' status)

SPECIFIC CONSTRUCTION EXPERIENCE (GENERAL CONTRACTOR OR SUBCONTRACTOR PERFORMING THE WORK)

Bidder must provide the following project history information for each Construction Experience requirement listed below. OWNER may in its reasonable discretion deem the provided experience information insufficient and reject the Bid.

For each Construction Experience item listed below, list and describe the applicable Construction Experience for successfully completed projects of comparable size, scope, and complexity to the Work described for this project. The minimum number of successfully completed projects is noted below. Comparability requirements may be spread among the projects per item submitted, e.g. One Project may demonstrate comparable size, another Project may demonstrate comparable scope and another may demonstrate comparable complexity. Decisions on "comparability" are at the complete discretion of the OWNER.

The Work must have been performed within the past five (5) years.

Bidder must provide all requested information in a complete, clear, and accurate manner. If necessary, additional information may be provided on separate attached sheets. Failure to provide any requested information may cause the Bid to be rejected by OWNER as non-responsive.

If the Bidder proposes to fulfill any specific construction experience requirement with subcontracted resources, the applicable Subcontractor must be included in the Bidder's Original MBE/WBE Compliance Plan. Failure to include subcontractors on the MBE/WBE Compliance Plan may render your bid non-responsive.

SPECIFIC CONSTRUCTION EXPERIENCE ITEMS REQUIRED:

ITEM 1. Provide a minimum of **five (5)** successfully completed projects involving installation of drilled shaft foundations in geologic formations consisting of chalk and/or limestone typical of the central Texas region.

ITEM 2. Provide a minimum of three (3) successfully completed projects involving installation of stream bank stabilization measures.

The Bidder shall complete and duplicate the following specific Construction Experience Form as required to provide the requested documentation for the minimum number of successfully completed projects for each of the above specific Construction Experience requirements.
