

**ADDENDUM
CENTRAL BUSINESS DISTRICT ORGANICS PILOT
CITY OF AUSTIN, TEXAS**

Solicitation: RFP SLW515 Addendum No: 1 Date of Addendum: 6/30/2016

This addendum is to incorporate the following changes to the above referenced solicitation:

I. Questions:

Q1: Will greases be included in the collections?

A1: The City will continue to promote the separate collection of grease from compostable materials and landfill trash, for proper disposal and recycling. The potential for improperly discarding grease is the type of challenge that the CBD composting pilot is looking to understand and address.

City staff, in coordination with the successful vendor, may provide educational materials, training, decals, or other efforts to reduce the improper disposal of yellow grease into the compost containers. Yellow grease has a higher-and-better use, so (in addition to the revenue generated) our zero waste principles encourage diversion for reuse, before composting.

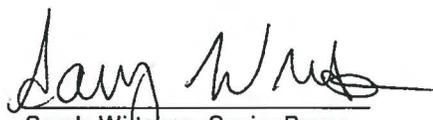

Q2: What is the quantity of grease traps in the business areas where the pilot program will be established? Frequency of collection?

A2: Staff does not have this data readily available, because the City does not collect grease.

II. Additional Information: The pre-bid sign in log is attached.

III. ALL OTHER TERMS AND CONDITIONS REMAIN THE SAME.
