November 3, 2015

To: Consultants Requesting RFQ Package

SUBJECT: Request for Statements of Qualifications (RFQ) for providing Professional Engineering Services for the Albert H. Ullrich Water Treatment Plant Conversion to On-Site Generation of Sodium Hypochlorite
Solicitation Number: CLMP191 – **CLARIFICATION #2**

This clarification #2 is in response to questions received which warrant a clarification.

Clarification:

Question 1: Instrumentation Engineering and Controls Engineering are separate major scopes of work in the Request for Qualifications. As a prime firm, do I have to select a firm for Instrumentation Engineering and another firm for the Controls Engineering? How many projects are required in response to Criteria Item 6?

Response:

Addendum 2 has modified the major scopes of work. Instrumentation Engineering and Controls Engineering have been combined as: *Instrumentation and Controls Engineering*. Two separate commodity codes for this one scope of work are included in the MBE/WBE Availability List. The City is requiring only one firm to perform this scope of work. Please see addendum 2 for information related to the number of projects to submit in reference to Evaluation Item 6 – Major Scopes of Work.

This document is for clarification purposes only. Please remember this solicitation is currently in a “No Contact” period and all inquiries should be directed to the appropriate contact persons listed in the solicitation. If you have questions regarding this process, please contact me at sofie.johnson@austintexas.gov or (512) 974-9143. For project related questions, contact Robyn Smith, Project Manager, at robyn.smith@austintexas.gov or (512) 974-2624.

Sincerely,

Sofie Johnson, Buyer II
